

# APA Love Accord Guidelines for Natural Law

Do no harm, cause no loss & do not trespass except in the defense of the innocent.

We Will:

1. Use LOVE as our moral compass through Natural Law to guide the principals of our conduct and interactions with all beings.
2. Use our innate ability to decipher right from wrong, our conscience.
3. Be selfless and united in our service to each other and in all we seek to accomplish.
4. Hold each other accountable to Natural Law with the spirit of LOVE at all times.

Natural Law comes from Source/Creator and is based on love. It is discovered through the use of reason and ultimately through choosing good over evil to form the basis of a just society. This universal moral standard is inherent and discoverable by all. It is dynamic, fluid, immutable and eternal. We are each a fragment contributing to the whole.

\*Any transgression will be investigated with a moderator and may be discussed and decisions voted on in assembly meetings.
